

APPLICATIONS: Direct cable application
Fiber and yarn coatings
Resin blends

SPECIFICATIONS:

Particle Size Distribution (µm)	0 – 150
Absorption Capacity (g/g deionized water)	> 200
Bulk Density (g/l)	400 - 800
Moisture (%)	< 7

Chemistry: Sodium acrylate polymer
Appearance: Free flowing white granules
Storage: Indefinite providing unopened containers/bags stored in dry conditions
Packaging: Multi-wall bags and supersacks

Technical information is based on current knowledge and is offered to inform and advise subject to your further investigation and verification. Modifications may be made in the interest of technical improvement. No warranties are expressed or implied as the use of the product is beyond our control.
