

# CABLOC®

Absorbent Polymers

**APPLICATIONS:** Direct cable application  
Fiber and yarn coatings  
Resin blends  
Filtration

---

## SPECIFICATIONS:

Particle Size Distribution (µm)	0 – 200
Absorption Capacity (g/g deionized water)	> 200
Bulk Density (g/l)	400 - 800
Moisture (%)	< 7

**Chemistry:** Sodium acrylate polymer  
**Appearance:** Free flowing white granules  
**Storage:** Indefinite providing unopened containers/bags stored in dry conditions  
**Packaging:** Multi-wall bags and supersacks

Technical information is based on current knowledge and is offered to inform and advise subject to your further investigation and verification. Modifications may be made in the interest of technical improvement. No warranties are expressed or implied as the use of the product is beyond our control.
